Dear Sir/Madam,

Application for the Position of Information Technology Internship

With great enthusiasm, I am writing to express my strong interest in the internship at Safetyware Group Berhad. The internship program, spanning 24 weeks from August 5th, 2024 to January 17th, 2025, presents an exciting opportunity for me to apply and expand my skills in information technology within a dynamic and innovative company.

I am Muhammad Athif Fitri Bin Mohd Nazar, a final-year Bachelor of Computer Science (Software Engineering) with Honors student at Universiti Malaysia Terengganu. Throughout my academic journey, I have consistently maintained a CGPA of 3.57 and have actively engaged in various coding programs, honing my technical skills and gaining valuable experience in UI/UX design, web/software development, and debugging/testing.

My involvement in significant software projects, such as the development of my final year project, the 2u2i UnityHub, and my pre-final year project, the OSS System has equipped me with practical experience in Java, PHP, JavaScript, HTML, Laravel, MVC, Tailwind, and other relevant technologies. These experiences have instilled in me the importance of attention to detail, effective coding structure, and problem-solving, all of which I am eager to apply and further develop within the innovative environment at Safetyware Group Berhad.

I am confident that my technical skills, combined with my strong work ethic, creativity, and optimistic approach, make me a strong candidate for the information technology internship position. I am eager to contribute to your team's innovative work and gain hands-on experience in software and system development.

Thank you for considering my application. I have attached my resume, letters of support, and industry feedback letter for your review and welcome the opportunity to discuss my qualifications further in an interview. Please feel free to contact me at 013-999 5602 or via email at athiffitri@gmail.com.

Sincerely,

(Muhammad Athif Fitri Bin Mohd Nazar)
